

**environmental solutions covering liquid and solid waste treatment, air protection and recovery of energy from waste.**

**Ion Exchange (India) Ltd.** has specialised in Water and Wastewater Treatment for over four decades. As pioneer in this field, we are one of the few companies in the world with a complete range of water and wastewater technologies, products and services. We are established as Asia's leading water and environment solutions provider for Industries, Homes & Communities.

In the recent times the company have expanded its total water management range by strategic investments and joint venture partnerships with leading global companies. The Joint Venture with Waterleau Group based at Brussels, Belgium, **Ion Exchange Waterleau Ltd.** leverages the strengths of both organisations to provide state-of-the-art turnkey environmental solutions and services to the growing Asian market.

**Ion Exchange Waterleau** ([www.ionexchangewaterleau.com](http://www.ionexchangewaterleau.com)) draws on the references and experience of more than 800 plants worldwide installed by Waterleau group in Municipal Waste treatment and Industries like Petrochemicals, Breweries & Distilleries, Plastics, Industrial Chemicals, Dairy and also Food & Beverages companies, to name a few. The joint venture in India provides single point responsibility of total environmental solutions for industrial and municipal needs for waste water and sewage treatment, solid waste treatment, waste-to-energy, hazardous waste management, air pollution control and renewable energy generation.

In a short span of just over one year since its inception, Ion Exchange Waterleau has secured contracts for Liquid Waste Management from prestigious customers in **Petroleum & Refinery** (Reliance SEZ – Jamnagar & Reliance KGD6 Basin - Kakinada, Andhra Pradesh), **Steel** (JSW - Bellary, GPT Steel – Gujarat), **Paper** (Tamilnadu News Print Ltd.), **Automobile** (General Motors, Maruti-Suzuki), **Chemicals** (GFL - Dahej), **Infrastructure** (4 MLD STP – Hebbal Lake Development- Bangalore), **Food & Beverages** (Heineken UB, Green Field Project – Hyderabad), to name a few. ♦
